General information

Consult a physician. Show this safety data sheet to the doctor in attendance.

Following inhalation

Remove victim to fresh air. If not breathing, give artificial respiration, better not to mouth-to-mouth. If breathing is difficult, give oxygen. Consult medical personnel.

Following skin contact

Wash material off the skin with plenty of soap and water. If redness, itching or a burning sensation develops, get medical attention.

Following eye contact

Immediately flush with plenty of water for at least 15 minutes. If redness, itching or a burning sensation develops, have eyes examined and treated by medical personnel.

Following ingestion

Provided the patient is conscious, wash out mouth with water. Vomiting should only be induced under the direction of a physician or a poison control centre.

4.2 Most important symptoms and effects, both acute and delayed

The most important known symptoms and effects are described in the labelling (see section 2.2) and/or in section 11.

No data available

SECTION 5: Firefighting measures

5.1 Extinguishing media

Suitable extinguishing media

Use extinguishing media appropriate, such as water spray, alcohol-resistant foam, dry chemical powder or carbon dioxide, for surrounding fire.

Unsuitable extinguishing media

Avoid high pressure media which could cause the formation of a potentially explosible dust.

Emit toxic fumes under fire conditions, such as carbon oxides, Nitrogen oxides (NOx);
If substance is an organic solid, fine dust dispersed in air in sufficient concentrations in the presence of an ignition source is a potential for a dust explosion hazard.

5.3 Advice for fire-fighters

Keep containers cool with water spray and on special protective equipment for firefighters, such as boots, overalls, gloves, eye and face protection and breathing apparatus.

- b) removal of ignition sources, provision of sufficient ventilation, control of dust; and
- c) Emergency procedures such as the need to evacuate the danger area or to consult an expert.

For emergency responders

Wear positive pressure self-contained breathing apparatus, wear anti - toxic, anti - static, wear chemical anti - penetration gloves.

6.2 Environmental precautions

Prevent entry to sewers and public waters.

6.3 Methods and material for containment and cleaning up

For containment

Contain solid spills with appropriate barriers and prevent migration and entry into sewers or streams.

For cleaning up

Clean up spills immediately and dispose of waste safely. Recover the product by vacuuming, shovelling or sweeping. Transfer spilled material to a suitable container for disposal. Contact competent authorities after a spill.
